THIRD REQUEST FOR CORRECTED FILING RECEIPT

Assistant Commissioner for Patents

Washington, D.C. 20231

October 10, 2002

Sir:

To date, the undersigned has requested this correction two previous times, but without response from the United States Patent and Trademark Office. This is the third time that this request is being made. Please supply the undersigned attorney with a second corrected filing receipt for the above-identified application. The undersigned also respectfully requests that the Patent and Trademark Office records be amended to reflect the corrections. Unfortunately, the PTO did not correct the filing receipt as previously requested in the Request filed January 24, 2002.

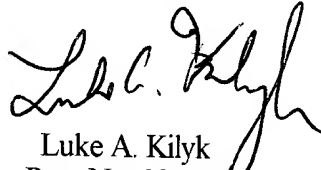

The U.S. Patent and Trademark Office again issued a Filing Receipt which incorrectly listed the domestic priority filing date as "December 20, 2000" for PCT/JP99/07152, when the filing date is -- December 20, 1999--, as set forth in the Declaration. Also, the foreign priority data was not correctly entered as shown in the Declaration. A copy of the Filing Receipt reflecting these corrections in red ink is attached.

Application No. 09/868,953

Attorney Docket No. 3190-010

It is believed no fee is required with this filing. However, in the event fees are required in connection with this paper, please charge our Deposit Account No. 50-0925.

Respectfully submitted,

Luke A. Kilyk

Date Mailed: 01/15/2002

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Bone resorption inhibitors

Preliminary Class

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Honorable Assistant Commissioner for Patents
Washington, D.C. 20231

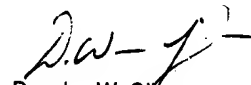

Sir:

It is respectfully pointed out that the Filing Receipt for the above-identified patent application is incorrect. The title of the application is incorrect. "PACKAGING TECHNIQUE FOR THE PROTECTION OF ELECTRONIC CIRCUITS IN HARSH ENVIRONMENTS" should be "AB INITIO QUANTUM TRANSPORT".

Please correct the filing receipt to correct the title as follows "AB INITIO QUANTUM TRANSPORT". Enclosed is a copy of the first page of the provisional application showing correct title, and a copy of the Filing Receipt with the change noted thereon.

Please charge any fees due to Deposit Account No. 13-4771.

Respectfully submitted,

Douglas W. Gilmore

Title

Packaging technique for the protection of electronic circuits in harsh environments

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

UNITED STATES PATENT AND TRADEMARK OFFICE
PROVISIONAL PATENT APPLICATION

Title: **AB INITIO QUANTUM TRANSPORT**

5 Inventors: **Alex Demkov, Xiaodong Zhang**

This invention generally relates to prediction of electron transport and/or electron mobility properties. More specifically, one exemplary embodiment of the invention
10 relates to a system and method for modeling the quantum electron transport function for silicon and/or silicon containing systems in order to determine *inter alia* the electronic properties of a material of interest.

In one exemplary embodiment, the system of the present invention may include a host server or other computing systems including a processor for processing digital
15 data, a memory coupled to said processor for storing digital data, an input digitizer coupled to the processor for inputting digital data, an application program stored in said memory and accessible by said processor for directing processing of digital data by said processor, a display coupled to the processor and memory for displaying information derived from digital data processed by said processor and a plurality of databases, said
20 databases including data that could be used in association with the present invention. The database may be any type of database, such as relational, hierarchical, object-oriented, and/or the like. Common database products that may be used to implement the database include DB2 by IBM (White Plains, NY), any of the database products available from ORACLE® CORPORATION (Redwood Shores, CA), MICROSOFT®
25 ACCESS by MICROSOFT® CORPORATION (Redmond, Washington), or any other database product. The database may be organized in any suitable manner, including, for example, data tables, look-up tables or any matchable data structures now known or hereafter derived in the art.

Association of certain data may be accomplished through any data association
30 technique known and practiced in the art. For example, the association may be accomplished either manually or automatically. Automatic association techniques may include, for example, a database search, a database merge, GREP, AGREP, SQL,
